

Connect & Empower Your Workforce with Igloo Flex

Get more done by connecting head offices, home offices, and employees on the go in a central intranet that streamlines every aspect of the workday.

Igloo Flex gives teams the tools and information they need to collaborate, communicate, and work to a higher standard—together.

Strengthen Corporate Culture

Culturally engaged and aligned workplaces are 23% more profitable, according to Gallup. Connect every employee to the corporate culture, leadership team, and each other with an intranet that makes work easier, no matter the role.

Centralize Your Work

Turn your goals into accomplishments faster with the right tools. Bring all knowledge and commonly used business apps into a central location where AI search and digital assistants can find the resources you need—in an instant.

Reach Everyone, Everywhere

Get your message in front of the right people at the right time. Targeted multichannel communication tools powered by generative AI empower easy engagement that reaches every employee.

Drive Rapid Adoption

Ensure a successful implementation with a proven adoption plan and industry-leading support. Igloo's services and support offerings drive results according to your goals and corporate vision.

Engage and empower your
corporate workforce with Flex.
